Session II	Quality Indicators/Medical Necessity	May 21
Session III	Query Do's and Don'ts	June 4
Session IV	E&M for Hospitals	June 25
Session V	E&M for Physician Offices	July 9

PROGRAM OBJECTIVES

Session I: *You Can Have it All! ICD-10 Coder Productivity & Quality*

Discover solutions to improve coder performance. Learn how to identify issues decreasing coding productivity and quality in your department and how to increase the productivity while improving the quality of your coders using ICD-10.

Session II: *Quality Indicators/Medical Necessity*

Gain an understanding of the Quality Indicators (Severity of Illness/Risk of Mortality) that impact reporting. The participant will also gain an understanding of the importance of documentation for Medical Necessity. We will also look at Social Determinants of Care, and why it is important for the complete coding picture.

Session III: *Query Do's & Don'ts*

Gain an understanding of the importance of the query process while learning the do's and don'ts of query writing. You will be walked through the process with real query examples for debridement, MI's, urosepsis, CHF, BMI, and more.

Session IV: *E&M Coding and Documentation for Hospital Coders*

Learn the ins-and-outs of proper E&M code selection. Gain an understanding of the documentation requirements necessary to avoid denials. Changes on the horizon for 2019 and beyond.

Session V: *E&M Coding and Documentation for Physician Offices*

In the professional coding and billing setting, learn the importance of complete and accurate documentation for E&M code assignment. Changes on the horizon for 2019 and beyond.
