

AUDITTRAX

You arrive in your office and find a RAC record request letter on your desk! 100 medical records, due back in 45 days. Someone has to pull and review the records, copy them, log them into a spreadsheet and arrange for them to be packaged and mailed – guaranteed to arrive at the RAC contractor before the 45th day. And that’s just the beginning of your audit concerns.

How will you coordinate work processes and deadlines for Medicaid RAC audits as well as your existing audits for commercial cases, CERTS, ZPIC and your organizations own internal audits?

Sound overwhelming? AUDIT Trax, a comprehensive workflow tool for managing all audits will put you in control!

AUDITTRAX HIGHLIGHTS

The screenshot shows the AUDITTRAX web application interface. At the top, there is a navigation bar with tabs for RAC Audits (C=14, A=3), Other Audits (1), Reports, Utilities, System Defaults, Content Editor, Change Password, and Logout. Below the navigation bar, there are filters for Aging Audits, Automated Audits, Rescinded Audits, and ADR Period. A 'Select a Claim' section includes filters for Audit Queue (All), Audit Status (All), and a search box for Patient Account Number. Below the filters is a table with the following columns: RAC Case ID, Letter Request ID, Patient Account Number, Medical Record Number, Patient Name, Audit Status, Audit Type, Amount at Risk, Audit Queue, and Due Date.

AUDITTRAX

A workflow tool for managing audits.

Our customers say it all

“AUDIT Trax is a powerful software tool that has helped my RAC team stay in control of the audit process. AUDIT Trax keeps us on top of deadlines and the automated appeal letters help us respond to denials very quickly. Installation and support is also top notch.”

Director HIM / RAC Coordinator

“AUDIT Trax, I have found to be a very user friendly program. Very easy to navigate, upload files and follow the entire course of an individual record. Excellent selection for our RAC tracking needs.”
