

2018 A MYRIAD OF ISSUES: Medicare's Maze of Rules and Regulations

Strategies for Staying Ahead of the Curve

March 27th – June 26th – Sept 25th – Dec 18th 2018

LOCATION: NJHA Conference and Event Center | 760 Alexander Road, Princeton, NJ 08543

PROGRAM OBJECTIVES

Coding, billing, compliance and a maze of changing Medicare rules and regulations – the only way to implement a successful plan to balance it all is to work strategically to stay ahead of the curve. Coding and billing is complicated and continues to be more important than ever. Not only have quality and reimbursement issues been added to the mix, but we continue to face new challenges related to documentation.

Now in its 14th year, this popular program, developed by NJHA Healthcare Business Solutions - Health Information Services, is updated and offered quarterly throughout the year. Each unique program will provide a comprehensive overview of new and revised Medicare rules and regulations. Our expert staff will research, analyze and decipher the coding and billing rules and present them in a straightforward and organized manner cutting to the chase and presenting in simple terms what you really need to know!

Each quarterly program will address new, timely, and evolving issues, each with its own list of agenda topics that are hot-off-the press

WHO SHOULD ATTEND

Patient financial services directors and billing staff, health information management directors, coding professionals, compliance staff, and other key personnel involved in the revenue cycle process
